

## Applicator Head AKS-200

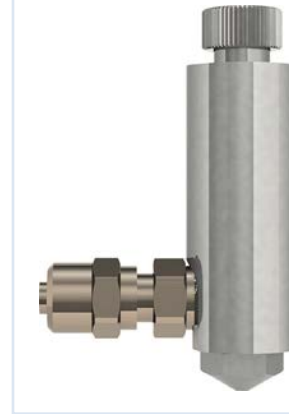

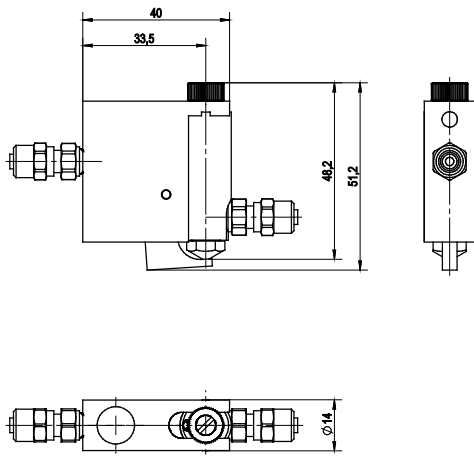

### Equipment Features

- Very slim design
- Universal applicator head for gluing, dosing and softening
- Exact intermittent application
- Long service life
- Applicator head for non-contact application
- Closure system (optional)
- Elektronic control

### Fields of Application

- Print processing
- Packaging
- Foil gluing
- Special machines
- Graphic industry

## Description

## Characteristics

- Non-contact application of dots and lines
- Very slim design
- Media supply independent of position
- Product monitoring (optional)
- Automatic closure system (optional)

## Technical Data

Frequency	Up to 1000 Hz (depending on media)
Sensor	optional
Temperature range	0 – 55 °C
Adhesive connection	M5, hose - outside diameter 6 mm
Adhesive pressure	0 – 10 bar
Nozzle-Ø in mm	0.4 (others available on request)
Closure system	Pneumatic with silicone seal
